Dear Colonel Mays:

STAT
STAT
Thank you very much for your letter of 4 December 1985 and your personal invitation for me and [] of my staff to participate in the Korean Intelligence Support System (KISS) in-process review scheduled for 15-24 January 1986. Due to unforeseen circumstances, I sincerely regret that neither [] nor I will be able to accept your kind invitation. I apologize for any inconvenience this may cause.

I am very interested in the role of information handling systems that support the intelligence efforts of United States Forces Korea/Eighth Army and appreciate your interest in computer security. The DCI has made this area one of his top priorities for the 1980s-1990s.

The IHC is working in coordination with DIA and other agencies of the Community as well as with the Computer Security Center to identify security products, services, and procedures which will enable intelligence organizations to support operational users while still protecting sensitive methods and sources. I invite you to visit us to discuss some of these matters during one of your trips to Washington.

I very much appreciate your invitation for us to visit Korea and hope that we may be able to do so at some future date.

Sincerely,

Chairman
